Key advantages:

- Works on the principle of a classic full-height turnstile, however elegant side leaves and rotor panels are made of impact-resistant glass
- Low noise system operation
- Successful combination of affordable price and high quality
- Wide range of accessories
- Steadfast housing suitable for high traffic areas
- Can be integrated with any type of access control systems
- Low power consumption
- Wired remote control panel is in a standard kit
- In case of power failure, fail-secure by default (rotor locked in both directions);

Options:

- Any access control systems upon request (e.g. passage counter, RFID/Proximity/BioMetric readers, coin acceptor, push button, barcode and QR-code reader)
- OEM / logo application
- Lane light
- Fail-safe mode under request

Controlled by:

-  access control system;
-  manual control

When power goes OFF both directions are locked.

Electrical Specifications:

- Voltage:
 - from the AC (100-240)V, 50/60Hz;
 - from a DC source 12 V;
- Maximum power consumption 155W per pass.

Technical Specifications:

Angle between leaves	Y-type / 120°
Unit width, mm	1142
Unit length, mm	1175
Unit height, mm	2306
Passage width, mm	580
Mechanism	servo-driven
Standard housing	Brushed SS AISI 304
Available housing	Brushed SS AISI 316 Polished SS AISI 304 Polished SS AISI 316 Powder coated RAL
